

Right under your moustache

Installation

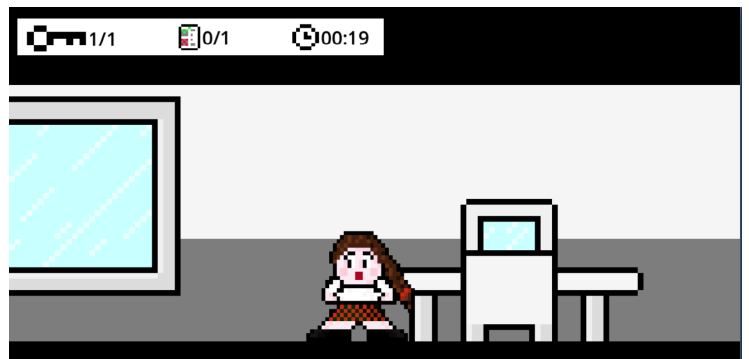

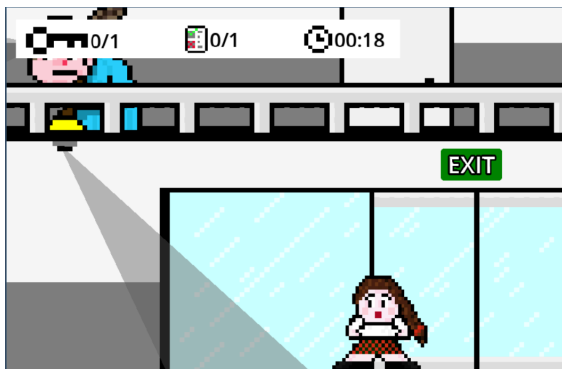

To play Right Under Your Moustache, follow these steps:

1. Extract the contents of DDJD-PP-G4-Right-Under-Your-Moustache-game.zip.
2. Navigate to the Executables directory.
3. Enter the folder corresponding to your operating system:
 - Windows: Double-click on Right_Under_Your_Moustache.exe.
 - Linux: Open a terminal in the folder and run: `./right_under_your_moustache`

How to play

The objective of the game is to steal the exam from Professor Augusto. To accomplish this, you must first find the key to enter his office and then discover the password to unlock the file containing the exam. Once you have the correct password, you will need to download the exam file.

You have no lives. The main objective of the game is to complete it in the shortest time possible. To make this more challenging, the keys appear in different locations each time you play, and the code to access the computer changes as well.

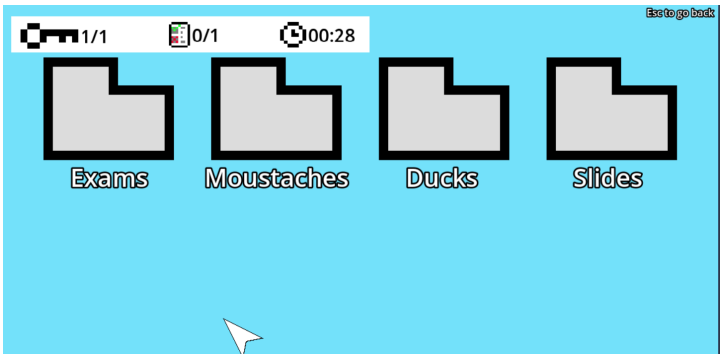

The main character can move to the right using either the right arrow key or the “D” key, and to the left using the left arrow key or the “A” key.

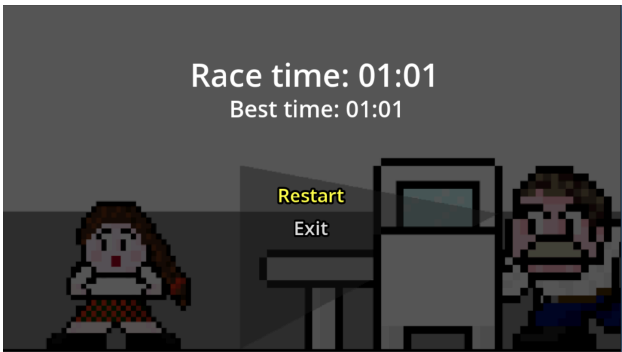

Additional controls are introduced as you encounter interactive elements, with instructions provided at the appropriate moments.

In the computer scene, you can only interact using the mouse, and you can press the “Esc” key to exit directories.

In both the main menu and the final menu, you can navigate using either the mouse or the up and down arrow keys.

Enemies

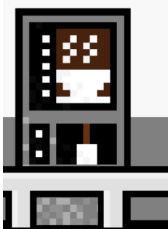

If you collide with an enemy, you die and must restart the entire level. All collectables are reset, and the timer is also restarted.

Powerups

When you interact with a clock, it reduces your time by 10 seconds. The coffee machine allows you to drink coffee, making you move faster.
